

Living Heritage Events

Stand Types

- **Ground Space** – Most popular type of trade stand at our events. It is simply what it says. There are various sizes / frontage on offer starting from 20ft (6m) frontage going up in 10ft (3m). Each option has a 20ft (6m) depth for your stand and 20ft (6m) behind for your vehicles and storage (site depending). This can include vans and caravans. Please keep within your allotted space and do not go over into your neighbour's space. Please remember that in front of your stand is the public walkway so try not to drive on this or in front of other stands to keep this in good condition for your customers.
- **Shedding Units** – This is a long (or short row depending on number) of exhibitors in an open fronted marquee that is sub-divided to give individual units. They vary in sizes starting from a 3m x 3m (which is popular) up to a 18m x 6m and are available in any multiples of 3m. They are open fronted facing main walkways within the show, shedding is available in all three main areas of the show – trade areas, craft village and the food section. Exhibitor parking is usually available behind the shedding units although space may be limited depending on the size of shedding ordered. A 3m x 3m will only give one vehicle parking space, while a 6m frontage or greater will allow two or more and often this can include a trader's van and caravan. Extra exhibitor parking will be available in other areas of the show so if you are in doubt please ask one of the security or stewards on site.

Shedding 1 – The shedding units / marquee is situated on the trade line. Exhibitors must set up there stand within the unit / marquee. There is no space in front for parts of your stand / goods. This is a public walkway and security will remove any obstacles in the way.

Shedding 2 – For those that wish to set up both inside and in front of there unit this option is for you. The marquee / units are set 2m back off the trade line giving you an extra 2m in front for your stand. An example of this being a clothes stall putting a clothes rail outside within the 2m.

- **Gift Marquee** – Similar to our craft marquees and food halls the gift marquee will be a larger marquee housing a number of trade stands together. In here there may be several, or more other stands, ranging from clothing, jewellery, gifts, charity and information stands. Stands usually go down the sides of the marquee in rows therefore you may have a neighbour either side of you. Stand sizes start at 4m frontage by 2m depth (except Sandringham Christmas where 3m depth is offered) and includes a power point (13amp). Some of the events last year the gift marquee ranged from a 60 x 30(ft) to a 120 x 30(ft) and a 220 x 40(ft) at the Christmas event.
- **Log Cabins** – Only available at the Sandringham Christmas Craft, Food and Gift Fair in November. A new feature added to the event in 2022 these are a popular choice for any Christmas event. There are two sizes a 3m x 2.4m log cabin with wood floor and a 6m x 3m frame marquee with wooden sides and floor, wooden front gable and marquee roof.
